

# Instructions for installing our CS-Cart theme

1. Go to **Design** -> **Themes** and click on the + button to upload the new theme.
2. After the theme is uploaded go to **Browse all available themes**.
3. Click on the blue button called **Activate**

## Additional cs-cart settings

- Disable Call requests add-on under add-ons > manage add-ons
- Enable the **my\_changes add-on** under add-ons > manage add-ons. This add-on makes the website full width for banners and instagram.
- Adjust the thumbnail size under Settings > Thumbnails. The width of the product list thumbnails must be **220 or 280 pixels**.

## Banner slider

1. Go to Marketing > Banners and create a new text banner.
2. Edit the source code of the banner and paste the follow code:

```
<table>
<tbody>
<tr>
<td>
<h2>Denim Sale - Up to 90% off</h2>
<p><a href="/woman">Shop now</a></p>
</td>
</tr>
</tbody>
</table>
<p></p>
```

4. Close the source code editor and you can change the banner image. Best size: 1900 pixels x 600 pixels.
